Welcome

Mid-America Baptist Theological Seminary seeks to train those God has called for His service. Our Northeast campus offers seminary training on both the associates and masters level for students preparing to serve as ministers and missionaries. MABTS NE caters, in particular, to those who have a passion for the Northeastern United States, one of the least evangelized regions of the country. This campus enables those God is calling in the Northeast to stay in their communities and be trained alongside the very people they will spend their lives serving. It is also our prayer that men and women from across the country will be called to Northeast campus for seminary training and that they will ultimately plant their lives in the Northeast.

Student Life

Ministry can be challenging, but the Mid-America student body is a family. We realize that you cannot effectively minister without support, and the MABTS NE community places a high priority on friendship and fellowship. Families living in student housing find an extra level of community as students and their families spend time away from school relaxing, cooking, and playing together. Come be a part of the MABTS Northeast family.
